

# HomeSpun Rails

---

Quilt size is 64 x 84

Quilt is set 5 x 7 blocks

Block size is 10 inches (10.5 with seam allowance)

## Quilt Notes

- Strips are cut 2.5 inches and strip sets are sewn starting and ending with a Homespun strip with a black strip alternating.
- I like to use a black fabric that has a tone on tone type print rather than a solid because I find solids seem to pick up a lot of lint.
- Blocks are set in alternate directions as shown above
- Inner black border is cut 2 inches
- Outer border is pieced from homespun fabrics cut 5 inches wide – you can vary the lengths as desired, mine are mostly cut about 12.5 inches with the shorter ones 6.5 to 7 inches to make the border fit.
